We would like to recognize Graham Freeman for his outstanding service as a Board member over the past several years. Both as a volunteer and as a Board member, Graham has done an incredible amount of good for our organization and movement.

As a volunteer, Graham has worked tirelessly — often with short or no notice — to ensure that the technical architecture underpinning our projects is sound and well-kept. Graham has not only given his time and energy to our projects, he also donated and subsidized much of our early hosting infrastructure, for which we are extremely grateful.

As a Board member and former Chair, Graham helped us organize meetings, navigate bureaucracy, and calm sometimes tense debates.

Most importantly, Graham inspired us. When we were just a few kids with a big idea, it was Graham who encouraged us to fully pursue our vision and build an organization. From lending us the classic non-profit “nolo” book to bringing Philip to the non-profit bootcamp, Graham helped us find the resources to make this all happen.

Without Graham’s guidance, trust, and time there’s no doubt we wouldn’t be where we are today.

Yours truly,  
Philip Neustrom, Arlen Abraham, Reid Serozi, Matt Hampel, Mike Ivanov  
Board of Directors
