

THE SPIRIT OF LAWRENCE COUNTY.—An esteemed correspondent, at Jackson, Lawrence Co. writes, under a recent date, as follows:

“By last mail, we received the glorious news of the desired consummation (as it is here considered) of Annexation. It was hailed with joy by all—that is, by all Democrats, and sensible Whigs. Should Mexico object to our occupation of Texas, *the boys in these parts* are anxious to serve their country. *A call* would be answered by lots of volunteers.

The enterprising citizens of Randolph and Lawrence counties are subscribing very liberally to pay a company for clearing out Black and Currant Rivers, to the State line. When this is completed, Black river will be navigable for small steam boats, at *all times.*”
